dull, but steady. Stocks-Reading stocks again engaged the largest amount of attention. sales being nearly one-third the amount dealtin, and it was the most active day at the Stock Exchange for Home consumption to many weeks. Its net advance, considering the state of the market for a long time back, is phenomenal. The buying began at the opening and every etory that has ever been circulated in regard to the Reading road was brought out; but it was reported in the afternoon and received that the difficulties had positively been adjusted, and the sales toe last two hours were enormous. Trading in the others of the list was active, and the general good feeling was established in everything except Northern Pacific preferred, Oregon Transcontinetal, Pacific Mail and Peoria, Decatur and Evansville. Western Union was the leading feature outside of Reading, and it advanced materially during the day. The grangers, with the excep-tion of St. Paul and the Vanderbilts, were comparatively quiet, but all participated in the advance. There was some London buving of Union Pacific and the San Francisco chares, but the action of the Northern Pacific in regard to the lease of the Oregon Transcontinental and the resolution to build its own branch lines, continued to have an adverse influence on both of the stocks, and they recorded a material decline in the face of an advanc-ing market. The upward movement

soon resumed, and about 2 o'clock the best prices of the day were reached, after which realizations car-ried everything but Reading bank a small fraction, and the market closed heavy. Sales, 443,844 shares. Reading furnished 113,939 shares, Western Union 44,414, followed by Lacka-wanna, Union Pacific, Lake Shore, Oregon Transcontinental, Canada Sou hern, Northwestern, Northern Pacific preferred, Erie and Kansa; and Southern is up 11; San Francisco preferred, 1; Reading, 4; and others fractional amounts.
